20th May 2021

Dear all Scouts in the North West Region,

Firstly, I want to say a big well done for completing the 2021 virtual ShelterBox challenge! All of us here at ShelterBox hope that you had a wonderful time over the weekend of activities.

Thank you so much for once again choosing to support ShelterBox through your annual scavenger hunt. This year you raised £75, which brings your cumulative total to a phenomenal £23,395!

Right now, your support has meant more than ever. Families all over the world must deal with the double threat of trying to survive a disaster that has destroyed their homes and livelihoods as well as the threat of coronavirus.

Amuguija was forced to flee her village in north Nigeria due to Boko Haram violence four years ago. The ongoing threat has resulted in thousands of people just like Amuguija to flee their homes in search of safety. Working closely with our partner ACTED we are supporting families across two camps with emergency shelter kits, containing tarpaulins, rope, and other items.

Amuguija is now married and has a baby, Fatima. On the support she has received she said, "It has really helped the condition of our shelter. We have new tarpaulin to cover our household, which will hopefully keep out the rain during the rainy season."

Amuguija concluded, "I can stay in my house for longer periods of time compared to before I received the shelter kit, as it is now better covered."

Thank you once again for taking on the Virtual Scavenger Hunt for ShelterBox, and helping us support people like Amuguija move on following catastrophic disasters. Hopefully next year you can gather together for the ShelterBox Challenge in Liverpool once again!

Kind regards,
